

2021-2022

We were excited to offer Chromebooks, Tablets, and a few Hotspot devices to our families this school year and we hope to continue to offer technology for students to take home next school year.

We expected normal wear and tear on the devices this school year; however, if the Chromebook/Tablet suffered any damage that is outlined below you are responsible for the associated cost of repair or replacement. It is integral that we collect these funds to be able to continue to offer this technology to our students and families in the future.
